4. Commitment to the community beyond the profession

Candidates should have demonstrated excellence in leadership outside their professional or occupational field in areas which benefit the larger community. Candidates should have the energy and stamina to sustain them in demanding public leadership roles. Their personal actions and objectives should reflect a concern for the future of the entire community and an appreciation of the rights and responsibilities of citizenship.

5. Willingness to learn and change

Each Fellow should be willing to challenge their own assumptions, and increase their understanding and awareness of others.
