

## **Arturo Chavez**

Class XXXIX, Senior Principal, Page

My ALF experience was, as many other ALF Senior Fellows say, extraordinary! It was so because of the caliber of the people and the program in which we participated/engaged/contributed, all the while familiarizing ourselves with the power of dialogue and friendship.

I recognized that this amazing engagement through dialogue isn't accidental. The incredible folks that coordinate and facilitate the program throughout each class term, invest an enormous amount of time ensuring that the ALF experience maintains a exceedingly high return of investment for each fellow while achieving the vision and goals of the ALF organization.

In simple terms, ALF brings together the very best of our communities' problem solvers and provides them the fundamental means and methods to stimulate positive change in our communities.

I chose to support and to continue to support ALF because our communities grow stronger and more unified with each problem we solve together. ALF is the chassis on which we will can build the relationships that solve problems that build better communities!
